1.0 Introduction

1.1 Purpose

This report provides a methodology for allocating the proposed debt to be incurred by the Aberdeen Community Development District ("Aberdeen CDD" or "District") to properties in the District. The report provides for allocating the par amount of bonds being issued by the District to fund the District's adopted Capital Improvement Plan ("CIP") and the 2018 Project ("2018 Project") as described in the Supplemental District Engineer's Report for Series 2018 Capital Improvements dated July 31, 2018 which was prepared by England, Thims and Miller (the "2018 Engineer's Report"). As noted in the 2018 Engineer's Report, the 2018 Project consists of various capital improvements which are contained on **Table 2**. Not all projects included in **Table 2** may be undertaken. The District's Board of Supervisors, in its sole discretion, shall have the right to determine which projects will be undertaken. The District's 2018 debt will fund capital infrastructure improvements that benefit the properties within the District. The methodology allocates this debt to properties based upon the special benefits each property receives from the 2018 Project. This report is designed to conform to the requirements of Chapters 190, 197 and 170, Florida Statutes with respect to special assessments and is consistent with our understanding of the case law on this subject. This report supplements the Updated Master Special Assessment Methodology Report dated April 25, 2006 as adopted by the Board of Supervisors.

1.2 Scope of the Report

This Report presents the projections for financing the 2018 Project. This Report also describes the apportionment of benefits and special assessments resulting from the provision of improvements to the lands within the District.

1.3 Special Benefits and General Benefits

Improvements undertaken by the District create special and peculiar benefits to the property, different in kind and degree than general benefits, for properties within its borders as well as general benefits to the public at large.

However, as discussed within this report, these general benefits are incidental in nature and are readily distinguishable from the special and peculiar benefits, which accrue to property within the District.

1.4 Organization of this Report

Section One describes the purpose of the report along with the scope and benefits of the Capital Improvement Program.

Section Two describes the development program and ERU's assigned to the development units.

Section Three provides a summary of the 2018 Project for the District as determined by the District Engineer.

Section Four discusses the 2018 Project financing program for the District.

Section Five introduces the Assessment Methodology.

2.0 Development Program for Aberdeen CDD

2.1 The Development Program

The Aberdeen CDD is anticipated to consist of 1,947 residential units of which 382 are multi family along with 42,000 square feet of commercial and 7,000 square feet of office space in St. Johns County. The multi family units take into consideration a one acre parcel that is in the process of being transferred to the District and has 12 multi family assigned units.

3.0 The Capital Improvement Program for Aberdeen CDD

3.1 Engineering Report

The infrastructure costs to be funded by the District are determined by the District Engineer in the 2018 Engineer's Report. The 2018 Engineer's Report provides for recreational infrastructure improvements, which are planned for construction and referred to as the 2018 Project. Not all projects included in 2018 Engineer's Report may be undertaken. The District's Board of Supervisors, in its sole discretion, shall have the right to determine which projects will be undertaken. As defined in the 2018 Engineers Report, the 2018 Project consists of that portion of the CIP financed with the proceeds of the Districts Series 2018 Bonds.

Only infrastructure that may qualify for bond financing by the District under Chapter 190, Florida Statutes, was included in these estimates.

3.2 Capital Improvement Program

The proposed public recreational infrastructure improvements to serve the development consist of various items, the details and cost of which are provided for in **Table 2**. The individual projects reflect potential improvements of which costs may exceed the available 2018 Bond proceeds. **Certain individual projects may not be constructed due to the availability of funding by the District.** The District's Board of Supervisors, in its sole discretion, shall have the right to determine which projects will be undertaken.

The total costs for the 2018 Project that will be provided by the District are calculated by adding to the construction costs the costs for design, permitting, construction management inspection, and contingencies total \$1,712,000.

4.0 Financing Program for Aberdeen CDD

4.1 Overview

The District will finance the 2018 Project with Special Assessment Revenue Bonds. The financing plan for the District utilizes the issuance of Special Assessment Revenue Bonds Series 2018 (the "Series 2018 Bonds") in the principal amount of \$2,210,000 to fund the District's 2018 Project as shown on **Table 3**.

4.2 Series 2018 Bonds

The Series 2018 Bonds have an anticipated issuance date of November 1, 2018. The Series 2018 Bonds will be repaid with thirty principal installments commencing on May 1, 2020 with interest paid semi annually every November 1 and May 1, maturing May 1, 2050.

The Series 2018 Bonds are anticipated to be issued at par amount of \$2,210,000, with a projected average coupon interest rate of 5.50% and provide for construction funds of approximately \$1,712,000. The maximum annual debt service for the Series 2018 Bonds is \$152,060.

The difference between the par amount of bonds and the construction funds are comprised of costs of issuance including underwriter's discount, professional fees associated with debt issuance, capitalized interest for 14 months, debt service reserve and rounding.

The sources and uses of the Series 2018A Bond sizing are presented in **Table 3** in the Appendix.

5.0 Assessment Methodology

5.1 Overview

The Series 2018 Bonds provide the District with funds to construct a portion of the 2018 Project outlined in *Section 3.2*. These improvements lead to special and general benefits, with special benefits accruing generally to the properties within the boundaries of the District and general benefits accruing to areas outside the District and being only incidental in nature. The debt incurred in financing infrastructure construction will be paid off by assessing properties that derive special and peculiar benefits from the proposed projects. All properties that receive special benefits from the District's CIP will be assessed.

5.2 Assigning Debt

Consistent with the updated Master Assessment Methodology Report the debt will be assigned to the development units on an ERU basis as outlined on **Table 1**. Presently a one acre parcel with 12 multi family units is in process of being transferred to the District and is reflected on **Table 1**. If the transfer does not occur the assigned debt will be reallocated to all benefited lands through a new Second Revised Special Assessment Methodology Report for the Special Assessment Revenue Bonds Series 2018.

The infrastructure provided by the District will include amenity improvements which will benefit all lands within the District.

5.3 Lienability Test: Special and Peculiar Benefit to the Property

As first discussed in *Section 1.3*, Special Benefits and General Benefits, improvements undertaken by the District create special and peculiar benefits to certain properties within the District.

Improvements undertaken by the District can be shown to be creating special and peculiar benefits to the property. The special and peculiar benefits resulting from Recreational improvements result in special and peculiar benefits such as the added use of the property, added enjoyment of the property, and likely increased marketability of the property.

These special and peculiar benefits are real and ascertainable, but not yet capable of being calculated and assessed in terms of numerical value; however, each is more valuable than either the cost of, or the actual assessment levied for, the improvement or debt allocated to the parcel of land.

5.4 Lienability Test: Reasonable and Fair Apportionment of the Duty to Pay

A reasonable estimate of the proportion of special and peculiar benefits received from the CIP is delineated in **Table 4** (expressed as Allocation of Total Par Debt).

The determination has been made that the duty to pay the non-ad valorem special assessments is fairly and reasonably apportioned because the special and peculiar benefits to the property derived from the construction of the 2018 Project (and the concomitant responsibility for the payment of the resultant and allocated debt) have been apportioned to the property according to reasonable estimates of the special and peculiar benefits provided consistent with the land use.

Accordingly, no property within the boundaries of the District will be liened for the payment of any non-ad valorem special assessment more than the determined special benefit peculiar to that property. Further, the debt allocation will not be affected.

In accordance with the benefit allocation in **Table 4**, Total Par Debt has been calculated on an ERU unit basis for the 2018 Bonds.

5.4 True-Up Mechanism

The true-up provisions and obligations set forth in the Updated Master Assessment Methodology Report dated April 25, 2006 are incorporated herein for unplatted or non site planned lands and shall apply to the assessments levied to secure the Series 2018 Bonds.

5.6 Additional Stipulations

Certain financing and engineering data was provided by members of District staff. The allocation methodology described herein was based on information provided by those professionals. Governmental Management Services, LLC makes no representations regarding said information transactions beyond restatement of the factual information necessary for compilation of this report.
